

Nicole Tumpag

WEB DEVELOPER

nicole.tumpag.dev@gmail.com | 912-575-8529 | 1860 Rodriguez, Rizal

PROFESSIONAL SUMMARY

Detail-oriented, organized, and meticulous Full-Stack Web Developer with a proven ability to architect and deploy comprehensive software solutions under tight deadlines. Enthusiastic team player committed to contributing to organizational success through clean code architectures, robust workflow automation pipelines, and scalable database designs. Experienced across frontend, backend, and mobile application frameworks with a strict eye for detail and high-quality project delivery.

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design, Custom CSS Animations.

Backend: PHP, Laravel, Node.js, Express.js, RESTful APIs.

Databases: MySQL, MongoDB, Firebase Firestore.

Mobile & Tools: React Native, Android Studio, Xcode, Expo Go, Firebase, XAMPP, Electron.

DevOps & Logic: Git, Version Control, Debugging, Problem Solving, Role-Based Access Control (RBAC).

PROJECTS & WORK EXPERIENCES

Web Developer — Full-Stack Ordering & Management System November 2025

- Architected and deployed an end-to-end relational e-commerce ordering infrastructure using PHP and Laravel, covering frameworks from customer authentication to secure payment transactions.
- Engineered automated workflow pipelines for internal procurement operations, integrating delivery tracking with variance logic and dynamic system sales invoicing.
- Implemented strict financial security mechanisms to safely process payment confirmations and audit logs, ensuring 100% data integrity throughout transaction cycles.
- Enforced robust security postures via Role-Based Access Control (RBAC) structures utilizing native Laravel authentication systems.
- Integrated automated system mailers to distribute real-time transaction updates and status configurations transparently to users.
- Designed intuitive, high-performance, mobile-first user interfaces using Bootstrap framework implementations and integrated responsive stylesheets.

Web Developer — Informational Brand Website March 2026

- Developed a high-performance informational brand application optimized with fluid custom CSS keyframe animations and structural layouts.
- Integrated conversational artificial intelligence support capabilities using asynchronous external API structures to maximize client interaction frameworks.

- Deployed custom geospatial visualization layers utilizing Google My Maps API configurations to render accurate, live user-location telemetry.
- Established lightweight, serverless operational pathways for handling public lead generation datasets securely using specialized Formsfree gateways.

Mobile Developer — Leyrus: AI Chat App

May 2025

- Programmed a production-ready, cross-platform artificial intelligence messaging system for Android and iOS devices utilizing React Native and Expo Go frameworks.
- Integrated OpenAI language model RESTful interfaces to deliver dynamic, high-fidelity conversational systems and added Google AdMob configurations for tracking monetization vectors.
- Utilized professional platform IDE components including Android Studio and Xcode to compile codebases, resolve runtime bugs, and stabilize deployment performance.

Main App Developer — Todd Teacher: Parent Monitoring System

January 2025

- Served as lead full-stack developer, programmer, and interface designer to construct a desktop-based classroom tracking application using Electron shell wrapping.
- Programmed modular web server capabilities using Node.js and Express, coupled with a highly scalable, unstructured MongoDB database design.

Lead Web Developer & Designer — Pinoy Pride Marketplace

January 2023

- Directed technical scoping and e-commerce layout workflows using HTML5/CSS3 structures, managing local development tasks within XAMPP sandbox contexts.
- Developed transactional database relationships using structural PHP logic combined with scalable backend MySQL query engines.

EDUCATION

Bachelor of Science in Information Technology

Graduated 2025

Colegio De Montalban — *Academic Honors: President's Lister, Dean's Lister (GPA: 1.54 / 1.00)*

Information and Communication Technology

Graduated 2021

Asian Institute of Computer Studies (AICS)
